

Carved panels

RENCONTRE

by Patrick Jouin

ABOUT

With RENCONTRE, Patrick Jouin does a reinterpretation of the ornament for Marotte. The ornament's theme is back in the spotlight thanks to the emergence of new machining techniques. Patrick Jouin reinvents Marotte's sculpted panels and explores all the possibilities the machine has to offer. His work goes well beyond focusing on matter and the ways of giving it shape.

TECHNICAL CHARACTERISTICS

Models available : 16
Dimensions of panels : 2,50 m x 1,22 m
Thickness : 18 mm

APPLICATIONS

Hospitality
Retail
Offices
Public buildings
Residential
Etc.

PROCESS

Milling

Finishing

INSTALLATION

Wall installation

Panels can be installed with split battens running horizontally. We recommend to leave a void between panels and the wall in order to allow air to circulate.
